## Power of Youth, Go Beyond!

YEPC  
2024

IPYG brings together youth from 119 countries with diverse backgrounds and cultures. Serving as a global intersection for young people around the world, IPYG operates the informal education program Youth Empowerment Peace Class (YEPC) which is aimed at enhancing capabilities through cross-cultural exchanges.

Since 2020, YEPC, with the participation of 57 countries, provides education on issues related to youth. After the education, there is an activity assignment. Through YEPC, participants broaden their knowledge in various fields and recognize the importance of individual roles in achieving a sustainable future and peace.

Following the education, participants have the opportunity to engage in peace activities, showcasing the unique energy, creativity, and capabilities of youth. Through participation, individuals contribute to meaningful endeavors such as peacebuilding and volunteering in their communities, expanding their influence, and creating positive changes in both their personal lives and surroundings.

## Explore your capacities : Expand your impact.

In its 4th term, YEPC offers courses on the role of a global citizen for sustainable peace, practical knowledge related to youth health, and insights into various world religions and cultures.

-  To explore new knowledge and take initiative in their own lives as youth.
-  To help youth overcome complex and challenging problems from various perspectives.
-  To be a healthy member of society, respecting themselves and others.
-  To engage youth in contributing to the creation of a better world through their passion.

\* YEPC contributes to achieving UNESCO's goal of "Lifelong Learning" and providing global youth with quality education, one of the Sustainable Development Goals (SDGs).

There were many things that applied to me. The courses were a boost to my understanding in life and all that is around me and to be positive. I will surely share this knowledge within my community and of course with my family and my friends.

The common message of the education was that it is okay to make mistakes and that you should love and support yourself. I really liked it. I am so grateful to IPYG for providing such a meaningful education.

A student from Zambia

IPYG has promoted youth education. It has given hope to many young people who do not have access to proper education. It was a time of quality learning.

A student from Afghanistan

Thank you for educating youth on topics that can provide practical help.
